

## Final score:

The final score of 30 will be determined by combining the scores from three of four judges, or by combining the scores from the three judges, where one of the judges is the author of the image being judged. The author abstains from judging his / her own image.

The lowest (or one of the lowest scores) will be discarded to determine the score out of 30, when all four judges score an image.

## Image Scoring:

Each judge scores the image from five (5) to ten (10) based on how well the image captures the assigned topic and incorporates the following "Elements of Photography".

Each judge awards a score as follows:

- 5 or less for photographs that are very below average
- 6 to photographs that are below average
- 7 to photographs average
- 8 to photographs above average
- 9 to photographs that are very above average
- 10 to photographs that are outstanding with Impact and no flaws

See Image Score Detail table below with more detail descriptions for how to award these scores
